But do it.

Mike Pence is a traitor because he is a member of the Royal Order of Jesters (ROJ) which run sex blackmail operations, *including comet ping pong*. In fact the Comet sign was sold to James Alefantis after Comet Liquor closed, which is right next to another blackmail honeypot at Adams Morgan in DC called Perrys that employed two people who worked at Comet Ping Pong and Bucks Fishing and Camping. They also employ members of the

Furstenburg family who were listed in Jeffrey Epsteins black book . The Obamas had dinner with donors in the basement of this building.

Pence was outed as a member of the ROJ on 9/11/2017 by US Senate Anon. Here are his threads:

Wait a second...Pence's letter only indicates that he will not unilaterally toss votes. He has neither confirmed Biden votes nor has he failed us yet....His letter may be saying that he will bring in the States legislators giving them an opportunity to decertify and recertify electors which will lead to a Trump victory....just be a bit more patient...I know its is hard but Pence has not let us down yet...kicking it back will make it unchallengeable...naming Trump Pres elect today could and would be challenged....Pence is staying securely within the Constitution!

You're right. Obama got D'Souza put in jail. Trump let corrupt FBI rats do whatever they wanted and did nothing about it except tweet.

We have nothing but lawlessness. I could've told Trump four effing years ago that they would do everything they could to steal the election and how voter ID was an absolute must (and routinely filled that out on the surveys his team sent out).

Enjoy the swan song because he's the last GOP that will ever win the presidency.

The DOJ prosecuted D'Souza, they are probably the most corrupt U.S. institution. President Trump made some bad personnel choices but holding him accountable for the actions of 100's of thousands of Federal employees is complete bullshit.

He needed to drain the swamp and has not completed his mission because of voter fraud. Blame him like the left, you would be no better than them.

He is bound by the "laws" the democrats are adept at breaking. If this is anyone's fault it ours for being so fat, dumb and happy for so many years, while China and their ilk stole us away. I was responding to someone who thought Trump should invoke the Insurrection Act.

You know by now he is not going to do that.

And you also know by now that he has no magic wand (indictments and charges of foreign collusion) to get out of this mess.

He was supposed to BRING IT today. The earthshaking revelations never came. All we got was another stump speech,

The president works for us. Not the other way around. it's not the middle ages where you can be executed for criticizing the leader or Kin

We vote for the guy who best represents what we want and does the things that we want. and we criticize and sometimes vote against the guy that doesn't.. that's how it works in america. Saying you have to be loyal to the president means that you're not loyal to the country..

I turned on sports talk radio on my way home and even they were saying such things. We need to push back on the narratives that are being set. We are not running a coup. Trump called people to DC to do exactly this and then cucked when they actually did it. The entire GOP establishment including Cruz, Graham, and people like Jr and McEnany all shouted down the storming. No one in this administration has the stomach for what would be required.

Trump can't even stomach unarmed people storming the capital causing \$0 in damages and then getting shot in the neck for their trouble. He's certainly not going to stomach crossing the Delaware.

I dont simp for Trump. He has a lot of faults. His decisions regarding his election campaign and going about the fraud that he saw a mile away are poor ones.

And by the way this is about our votes, not just Trump. People have the right to be pissed that their fair vote, the only voice they have in this country, is stolen in plain sight like Venezuela.

There was an hour long interview with him right after he spent hours in a meeting with Trump and his closest staff. It was around here but no one really took the time to watch it all. He said that Trump was very calm and was proposing different ideas and his own staff were just telling him "you can't do that sir" and basically being pansy

bitches. Patrick said he almost got in a fight with one of them because the guy was being so rude to Trump. Also said that people who used to be able to get in and see Trump easily were being blocked.

Trump just has no allies at the top levels where he needs it.

No this was definitely known. Many people tried to warn this sub about pence being swamp. And I would see commenters attack people posting against pence. It was sad to see. People literally warning our members about a pence betrayal and downvoted. Pence is OG swamp. It's official. It's sad Trump trusted him. We need insurrection act or the military to get involved. At this point is there still a "plan"?

I didn't know what to think in all honesty but hell there's so many here who can say the same, and it's a damn shame. Trump needs to declare the insurrection act, how much more does he need before he feels justified in declaring the order. I don't understand why this has played out the way it has, none of this makes any sense. For the past 2 months we've held fast and this is what its come to. I see no plan, not in the slightest.

Oh ya sorry I reply to comments sometimes with more of a tone "to everyone" - this wasn't directed at you. I was just trying to vent that this sub can be frustrating sometimes. I'm from the OG T_D and they were way more savage with calling bullshit out. I understand Trump has significantly more supporters now and some of the people here are new to this way of thinking. I spent over 500\$ to come to DC. I'm trying to find food before the city lockdowns. I just feel defeated. I've been out in the cold since 6:30 coming from Florida 😂😂

I'm just hoping Trump gets Miller and Watnick involved now. Start declassifying now. Show the military ops that Chris Miller was talking about. Former Green Beret thanks pence for guidance conducting the most "complex military operations the US ever conducted" in a position he had for two months. Those two can save us

And if he is telling the truth about having this mountain of evidence of babies and children being raped to death by members of our government, he's a monster for sitting on it and not releasing it immediately. Immediately. He's a monster. If he's telling the truth. But we all know he isn't. At least the nsurrection act would make people take the vote fraud a little more seriously. Very few normies know there has not been a single audit. They keep hearing "COurts have thrown out 61 of 61 cases!" A lot of people, because the media is evil, do not know we have not been allowed to present our case.

Trump had no doj, fbi, no courts one man unable to enforce anything. Obama had drones like rice going to bat for him. Holder willing to lie. Everyone. Trump had a meme army and that's about it. He calls insurrection the military would abandon him. At this point I hope his family can stay safe after they leave office. To think people like mcconnell care about the party or principles more than the 25 million from Chinese father in law is naive. Sadly gop members looked out for themselves and democrats were unified behind a mission. This country will be sodom and Gomorrah soon. Let those who fought for the democrats reap what they have sown. In the military? Get ready for more wars! Cop? Get defunded or fired. Minority? Be a victim under the mans boot. Abortion? Guess more black babies going to get killed as their parents vote dem. If you're truly conservative you have your God and principles and that's about it. In the end he was undone by his own party and the gop deserves to get decimated. Fuck their dog and pony show as they vie for 2024.

Trump probably has the base of the military but those men answer to their direct officers who apparently are a lot of cucked dems. I doubt the military would do anything, guess they're happy going back to not being paid

The president directed us at the Capitol in his speech. The overflow area was marching there before his speech even finished.

And on the ground it's really hard to figure out what's going on inside when you have overloaded cell service and 24/7 action around you.

So unless you were on the ground directing people to stand down for strategic reasons, honestly stfu

Pence released a prepared statement shortly after the AZ objection and debate began (I think that's when it came out.) Pretty much sounded like he was cucking out but I wasn't sure how to interpret. Appears to be the case since PDJT has now tweeted out that Pence lacked courage to do the right thing.

Trump fucked up tweeting that he jumped the gun, Pence said was he wouldn't be unilaterally deciding which electors to count or throw out. Nothing in Pence's statement actually contradicted what Trump himself tweeted last night: send it to the state legislators. If Pence cucks out then fuck him too, but let's wait for him to actually do it before we lose our fucking minds over it.

St Peter had those moments of normal human cowardice when he denied knowing Jesus to avoid trouble. He regretted this but showed his devotion ultimately dying a martyr. Judas was a traitor and His story didn't end as well.

Now since it's hard to sort out people in the swamp, might I humbly inquire, but not as a call to do it posthaste, KILL THEM ALL, LET GOD SORT IT OUT.

Pence released this letter about three hours ago - that would make it right about as Trump was finished speaking.

https://twitter.com/Mike_Pence/status/1346879811151605762

And in it he says he will 'support the Constitution' by not being a 'unilateral' decider of whether the electors are in fact valid or not, all the while acknowledging the controversy around them.

Reaction has been swift. I'm still thinking about what this means. Trump's reply is one of disappointment.

The BLM riots were actually a good test to show all he'll do is talk and tweet.

It was a lot to ask one man to save the pile of shit our republic has become.

The last stand of white people will probably be Russia. Meanwhile, Asia will all be just fine. The west will all be overrun by the coming African population explosion. Meanwhile, Asians will not be dumb enough to take on any of that burden.

Ironically Islam is the best modern example of effective extreme conservatism, yet western conservatives learn nothing from Islam's repeated expansion.

We all want Trump to invoke the IA and use the military, but I kind of suspect that Trump lost the military, which is why we were down to this weak level action. I want to believe Trump has a plan B, but I'm not seeing it.

For what it's worth, I think there was a plan ("trust the plan"), but the plan just failed. We're dealing with historical-level forces here. There was no man I'd rather have had at the helm to get us through all this, but sometimes Rome falls.

I'm wondering if we're going to see a secession movement over this.

Chill. Don't become a Doomer. Pence's role was one option. Trump gave it to him and he passed. There are a lot of other things going on simultaneously (literally today and right now) that do not include Pence.

Pence had his chance, now he'll be drained with the rest of them. There still is a plan, but it will make today look like a Toy Story sequel.

And the military, and more importantly Military Intelligence, are still behind trump. That executive order is going to trawl up a lot more than Chinese owning Dominion. And don't sleep on the Italy rumors.

GOP isn't dead. They're alive, well, and will get rich off a Biden presidency, like everyone else.

Face it. Washington is lost. The states are mostly lost. This is it. This is what we have.

There's a small, small, small glimmer of hope the states will do the right thing and win the Congressional debate on electoral votes. That's the side Pence chose, and now it rides out how it will. Trump wanted Pence to take a gambit that had just as much chance to fail in front of SCOTUS. Not excusing Pence, I can just see why he folded. He did what the GOP has done for decades - pussy out.

Not dooming. Just being realistic. Trump went further than most thought he could in 4 years, but there's a good chance he's going to have this election stolen blatantly in front of us. That's why the protest in Washington is the right thing. And there needs to be more and more and more of them.

But people do care, and they will care more in the coming days. Had you killed a few cops or even a senator it would have accomplished nothing, the power structure and the liberals behind it would *not* have been intimidated into doing what you wanted. On the other hand, simply sitting back and waving flags while following all the rules and staying in your little area, and then returning home dejected, that would have done nothing either.

What happened today was *perfect*. It's the best thing you could have done given the failure of our leadership today. It sent a huge message, it has shaken the pillars of the current power structure. Because it was admirable and many people will look on it with admiration, and they will understand that more is possible.

You are right. Many think today is the end of it all, but the fight will go on, and the movement keeps growing stronger. A million regular people descending on Washington and storming the capitol in the middle of a work week (Republicans have jobs after all) is irrefutable evidence of that. The Republicans in some state legislatures have found backbone and are starting to fight (e.g. PA legislators throwing the Lt Governor out). RINOs are going to lose going forward. A recent poll had Kemp getting his ass kicked in against Collins. Vernon Jones will beat Ratberger. Election reform across the country is inevitable. MSM continues to lose its influence. **IF** we can continue the momentum after this, there will be more victories ahead.

He was hoping Pence would unilaterally decide the election in an unprecedented and illegal way. Sorry, but that's what it is. For it to work SCOTUS would have to rule the Electoral Count Act unconstitutional AND rule that it's constitutional for the VP alone to discard certified votes. SCOTUS won't even hear his cases, do you think that would happen?

I'm sorry, I know it sounded like a rosy option but it was just never realistic.

Pence had the chance to throw the election to the house and let the states send delegates to finalize the vote

the thing is, each state gets one vote. since there are more red states, Trump would have won

instead of listening to all the people who objected, he just certified the results

Yes, if even people that close to him won't do what needs to be done, then why should we do all the hard work? It has been glorious 4 years, but now it's time to step back and protect yourself from another 4 years of Obamatype policy. One thing that for sure got exposed is all the irrational hate toward conservatives despite the great results the policies produce.

No, they expect us to starve to death after they take our guns and fuck with the food supply. They are already going door to door in the UK making people kill their backyard chickens because of "avian flu." Communists take over without a single shot fired when they starve you out slowly, and make you fight amongst yourselves.

Q people said hes deep state for years and i never looked into why they said that but because of that I never let myself be convinced he was absolutely legit despite professing to be a Christian and everything and now we know why so many people blindly trusted him there must have been so many shills saying that after a while people just repeat it.

He has a creepy, disaffected way of talking, as if there's no real person there. As if a news anchor is reading lines in a performative way, but instead, he's talking in real life. He sounds like a sociopath pretending to be a normal human. With all the Linn Wood stuff, I wouldn't doubt that he's a satanic pedo.

I didn't want to doom, so I never posted as much, but I haven't had a good feeling about Pence since I saw him debate Kamala. When it became apparent that Trump was relying on Pence, by stomach instantly sunk.
